

MIKI HOUSE Group Environmental Policy

As a corporate group that creates and proposes rich lifestyles through the coordination of children's fashion and living environments, the MIKI HOUSE Group is committed to continuously creating and providing value in a sustainable manner over the long term.

To achieve this goal, we have formulated the MIKI HOUSE Group Environmental Policy (hereinafter referred to as the "Policy"). By implementing the following items through our business activities, including when it comes to our value chain, we will strive to ensure the maintaining of local communities and their living environments and provide environmentally friendly products, thereby allowing us to contribute to the sustainable development of society and the economy through coexistence with the global environment.

- ① Environmentally friendly product development, sales activities and services
From product development to sales activities and services, and from the consumption to disposal phases, our aim is to undertake environmentally conscious corporate activities in view of the lifecycles of our products.
- ② Promotion of environmental conservation and prevention of environmental pollution
Aiming to conserve resources, raw materials, water, and energy, we will strive to prevent air, soil, and water pollution, promote environmental conservation, and prevent environmental pollution.
- ③ Legal and regulatory compliance in relation to the environment
In all countries and regions where we conduct business, we will comply with laws, regulations, agreements and international guidelines related to the environment.
- ④ Reduction of waste
We will reduce the disposal of raw materials and products in all processes of corporate activities.
- ⑤ Promotion of a recycling-oriented society
We will promote the effective utilization of resources through the facilitation of a cycle involving the following concepts: Recycle, Reuse, Reduce, Refuse, and Repair.

⑥ Protection and maintenance of biodiversity

We will strive to protect the diversity of natural environments and natural ecosystems in order to go about protecting biodiversity, and when going about doing that, we will give the utmost consideration to biodiversity within our corporate activities.

⑦ Efforts to address climate change

We recognize the impacts of climate change and related risks and opportunities and will work to both mitigate and adapt to climate change.

⑧ Environmental management system

We will set and implement environmental targets, periodically review them, and strive to conduct continuous business activities.

⑨ Environmental education and awareness

We will conduct education and awareness-raising activities to increase awareness and knowledge levels when it comes to environmental conservation and protection.

⑩ Disclosure and communication

Directors and employees of the MIKI HOUSE Group will be made aware of the matters outlined in this Policy, which will be made available to the general public through our company website and via other means. We will also disclose information in a transparent manner.

This Policy was approved by the Board of Directors of the MIKI HOUSE Group (MIKI SHOKO CO., LTD.) in August 2023.
